

LEARNING SOLUTIONS

Custom Live Training

Live Training for Your Organization Provides a Guaranteed Path to Success

Have a large group of candidates you want trained together? Custom Live Online or In-Person Trainings offer direct instruction from content and exam experts for an interactive learning experience.

Customized Live Learning Experience

Managers and recruits nationwide can now benefit from our Custom Live Training. This custom training option delivers the additional preparation your candidates need to successfully pass the licensing exam. During live training sessions, content experts cover all major study topics that candidates will be tested on during their licensing exam. Along with the live training session, each candidate will receive complete access to our online course; including our OnDemand Video Lectures, multiple Chapter Quizzes and Simulated Exams. Our custom trainings will provide everything your candidates need to pass their licensing exam on their first attempt!

Key Benefits of Custom Live Training

Provides users the ability to interact with a content expert and community of peers

Access to our complete online course; everything your candidates need to pass their licensing exam

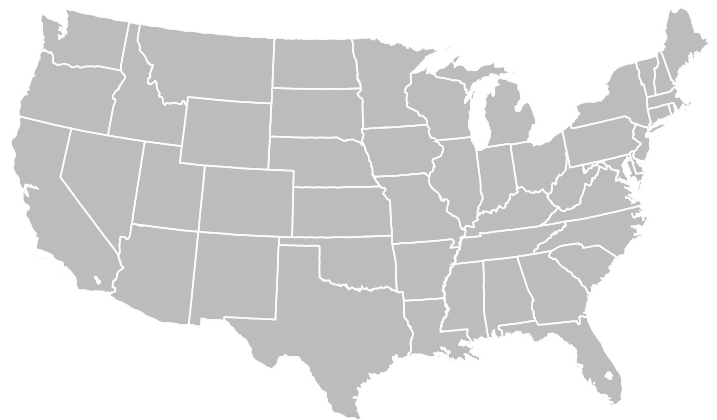

Increases flexibility to coordinate with your corporate training plans and schedules

Provides an increased level of candidate accountability and encourages candidates to pre-study in preparation for class
